

## Flush Axiom™ Curve Headwall

The **Axiom™ Curve Flush Headwall** provides all of the patient services in one compact flush mounted location leaving maximum floor area for patient care. The Flush Axiom is constructed of heavy-duty aluminum extrusions that are deep etched and clear anodized. Access panel color can be chosen from a wide variety of colors and textures including matching wall coverings. All services are connected at the top of the unit to preserve the integrity of the wall studs. An integral 1" finish trim provides for easy and clean installation without the worry of sheetrock and wall covering imperfections.

Units may be used as a pair to provide services to each side of the patient.
