

The **Infinity™ Training Headwalls** are specifically designed for teaching labs and institutions. The horizontally configured headwall provides Vacuum, Air and simulates Oxygen\* just by plugging the unit into an electrical outlet. The Infinity™ Training Headwall provides an inexpensive and quick method for simulating a patient room's medical gas services. The equipment track and rail integrated into the unit allow for space management and organization.

The Infinity™ Training Headwall is designed based on your needs. The traditional methods of providing medical gas services can cost thousands of dollars per bed with a centralized vacuum pump and air compressor and a network of piping. The Infinity™ Training Headwall was developed to provide Vacuum, Air and Electrical Power in a self contained cost effective unit that eliminates medical gas problems with lab renovations.

## **Features**

- A solution that will save thousands of dollars over a traditional centralized system
- In a few hours you have a fully functional patient room simulation of working Oxygen\*, Air and Vacuum service with hospital accurate flow rates and hospital grade receptacles
- Infinity™ Training Headwalls can be added one at a time as your budget permits
- The Infinity™ Training Headwall can be moved with ease when lab spacing needs change
- The Infinity™ Training Headwall horizontal rail is 49" wide x 5" deep x 9" high with a vertical service chase 14" wide x 6" deep x 36" high; housing the self contained pump/ compressor
- Installation is simple: locate the Infinity™ Training Headwall in position near the bed, secure it to the building wall, plug in the six foot electric cord to an available outlet and you are up and running.

\*Oxygen simulated with air.

\* Cogent™ Training headwalls compliment simulation, not designed to run a simulation manikin. Maximum 50PSI

### Available Options

#### **Add**

- Overbed Light Fixture [with pull cord switch]
- Integrated Non-Functional Nurse Call\*\*
- Integrated Non-Functional Code Blue\*\*
- Integrated White Dry Erase Board
- Oxygen Flowmeter
- Medical Air Flowmeter
- Vacuum Regulator [Continuous]
- Vacuum Regulator [Continuous/Intermittent]
- Vacuum canister and holder
- Additional Mounting Brackets as Requested

### Available Accessories

#### **Add**

- Utility Basket
- Sphygmomanometer Mount
- Sphygmomanometer Cuff w/ Basket
- Sharps Container with Mount
- Single Hook I.V Arm

US Patent # 7,878,809

\*\* Blank for Nurse Call and Code Blue provisions is standard.
