

Axiom™ Eloquence Headwall

The **Axiom™ Eloquence** is a flush or surface mounted horizontal headwall which provides all of the patient services in one compact location leaving maximum floor area for patient care. The Eloquence is constructed of heavy-duty aluminum extrusions that are etched and clear anodized. Access panel color can be chosen from a wide variety of colors and textures including matching wall coverings. All services are connected within the unit to allow for ease of installation.

Removable laminate panels are available in a variety of finishes that can match any room décor. Vertical equipment track is incorporated into the unit while maintaining a flush finish. Horizontal equipment rail can also be surface mounted onto the unit to accommodate a large variety of accessories.

Features

- Standard vertical equipment tracks are part of each headwall
- Large selection of track accessories
- Flexible headwall designs—easily accepts customer options
- Durable, low maintenance construction
