

The HSI **Security Enclosure** provides a lockable cover for existing onsite services. The lockable security door covers all electrical and medical gas devices and includes a full length hinge and minimum of two locks.

The door opens 180° to allow maximum clearance for any medical gas devices.

The enclosures are made to order, so you can have the configuration and size that meets your requirements.

The Security Enclosure is available in stainless steel or powder coated steel.

Features

- 16 gauge stainless steel construction
- Beveled edges offer ligature resistance for high security areas
- Unit protrudes approx 2" from building wall
