The **HSI InSight Security Console** provides typical hospital devices in a secure area. Featuring transparent clarity and impact resistant Lexan lockable security door(s), all electrical and medical gas devices can be secured while providing functionality and visibility.

Box will be a code gauge, formed steel with a depth allowing for secondary equipment to remain functional while the door remains closed and locked. Lexan Clear Polycarbonate locking door enclosure is designed for maximum impact resistance.

The InSight Security Consoles are made to order so you can have the configuration and size that meets your requirements.

**Features**

- Flush Mounted
- Stainless Steel or Powder Coated (Oyster White)
